

This is an example of some text with variant readings recorded as ‘A’ footnotes. From here on, though, we shall have ‘C’. For spice, let us mark a longer passage, but give a different lemma for it, so that we don’t get a huge amount of text in a note. Finally, we shouldn’t forget the paragraphed notes, which are so useful when there are a great number of short notes to be recorded.

This is a second paragraph, giving more *examples* of text with variant readings recorded as ‘A’ footnotes. From here on, though, we shall have ‘B’ notes in the text. For spice, let us mark a longer passage, but give a different lemma for it, so that we don’t get a *huge* amount of text in a note. Finally, we shouldn’t forget the column notes, which are so useful when there are many short notes to be recorded.
